London/UK

## OBJECTIVES

Starting a career in the technology area. I am looking for my first job opportunity in the IT Area. I am currently studying Systems Analysis - (Brazilian University.). At the same time, I'm taking classes on programming languages, C++, Java and Java Script, and also basic HTML/CSS.

## General Skills

- Communication
- Problem Solving
- Leadership
- Attention to Details

## WORK EXPERIENCE

### Biscuiteers / Quality Supervisor

Since, august 2019, London/UK

As a quality supervisor I have developed skills such as:

- Team leadership, leading up to 30 staff,
- Strategic planning and organization, organizing production pace and time management according to daily targets.
- Having to be one step ahead in order to get the progress of production successfully executed and achieve good results and proposed targets.

### UNESC- / trainee, Visual Arts Department

February 2017 - June 2018, Santa Catarina/Brazil

As a trainee in the Arts department, I have worked directly with the coordinator of the sector, where events related to the arts were held.

- Art exhibitions, musical performances, theatrical performances, among other events.
- This whole environment has allowed me to be in contact with different teams related to organization of events.
- I have had experience working with exhibition setups, which have allowed me to expand my knowledge and skills in planning.
